Program of Services Budget 2021/2022

Introduction

The Program of Services Budget is mandated by school code and includes the areas of: curriculum development and instructional improvement; educational planning; educational technology; continuing professional education; pupil personnel; state and federal liaison; and leadership support services. For the Allegheny Intermediate Unit (AIU), this budget represents approximately 1% of the agency's operation. A chart reflecting an overview of the dollar value of total budgets operated under the auspices of the AIU in 2019/2020 can be found on page 8. More than 135 separate program budgets make up the over \$157 million total.

The 2021/2022 Program of Services Budget, sometimes referred to as the General Operating Budget, is developed following a series of discussions among the district superintendents and a number of administrators at the AIU. Program of Services Budget discussions occur with the Superintendents' Finance Team and also at regularly scheduled regional superintendents' meetings. In the process of being formulated, and before each budget is submitted for approval to the respective school boards, the Program of Services Budget undergoes a high level of scrutiny by those individuals in position to comment on it most objectively.

The document is also reviewed by members of the AIU Board of Directors, who are in the unique position of being able to analyze the budget from the perspective of a local school board member and a member of the AIU board. After considering the recommendations from all of the participants in the review process, revisions are made and the final Program of Services Budget is drafted. The budget is provided to district superintendents for final review, approved by the AIU board and submitted to the local school boards for approval.

The 2021/2022 Program of Services Budget reflects no increase in the district allocation. The AIU continues its commitment to hold the line on costs while ensuring that it provides an array of services that are high quality, leading edge and cost effective for our member districts.

Program of Services District Allocation

Description	Actual 2019-2020	Actual 2020-2021	Proposed 2021-2022

Outline of Procedure for Adoption of the Program of Services Budget

- AIU staff and the Superintendents' Finance Team began meeting in November 2020 to prepare the 2021/2022 Program of Services Budget.
- A draft Program of Services Budget was shared with the Superintendents' Advisory Council (42 superintendents) on December 15, 2020 and agreed upon on January 19, 2021.
- The AIU Board of Directors adopted the budget at their meeting held on January 25, 2021.
- A majority of the boards and a majority of the weighted votes (based upon pupil population) in the 42 districts must approve the Program of Services Budget. This action should be scheduled by the school district in March of 2021.
- The budget must be submitted to the Pennsylvania Department of Education by May 1, 2021 for approval.

The AIU is a vibrant and evolving organization committed to serving the students and families in your district. Your favorable response to the 2021/2022 Program of Services Budget will enable us to sustain this commitment. Your vote is appreciated.

Questions and Answers About the Allegheny Intermediate Unit and its Program of Services Budget

1. What are intermediate units?

Intermediate units are regional educational service agencies. Created by the Pennsylvania state legislature in 1970, they represent the middle level of the three-level system in Pennsylvania for the delivery of educational services between the state Department of Education and local school districts.

2. How many intermediate units are there in Pennsylvania?

There are 29 intermediate units in Pennsylvania. Together they encompass the 500 public school districts in the Commonwealth.

3. Which school districts are served by the AIU?

The AIU serves all of the school districts in Allegheny County outside of the City of Pittsburgh. The total number of school districts is 42, serving about 113,603 students in K-12 public schools. The AIU's service area contains more school districts than any other intermediate unit in the Commonwealth.

4. What is the role of intermediate units in relation to school districts?

In 1970, the state legislature established intermediate units as regional consortia to collaborate with school districts, provide certain vital and specialized support services for students, and make the state system of education more equitable. Intermediate units were created to support and assist local school districts, not to replace or duplicate the basic responsibilities delegated to school districts by the state.

5. Why were intermediate units created?

The state legislature created intermediate units to assist in providing each child with equal access to a quality education. School districts in a region may vary widely in their access to the finances and resources necessary to enable all of their children to receive an appropriate education. The wealth of a district may change over time varying the resources available to meet its needs. Therefore, in the spirit of collaboration, the intermediate unit works to pool the resources of school districts so that all students in the region benefit despite the shifting financial base of the local district. The intermediate unit acts as a catalyst for cooperative ventures.

6. How does the AIU assist in enabling children to have equal access to educational opportunity?

In partnership with its member school districts, the AIU helps to ensure an equitable education for all students in three basic ways:

- a. By providing significant economies of scale as a consortium in purchasing essential products and services for individual school districts;
- b. By having the experienced staff to provide expertise and certain vital, specialized support services that school districts may not have or may have difficulty providing; and
- c. By allowing school districts to use subsequent cost savings realized (including time and effort saved) to stabilize their tax bases and make greater direct investments toward their instructional needs.

7. Why is the AIU considered to be a valuable regional asset?

The AIU has been a partner with local school districts for nearly 50 years. With over 135 different programs, the AIU has assembled a highly diversified and skilled staff to support the wide range of local school districts in Allegheny County. As members of a regional educational service agency, the AIU staff has both a national and state perspective and a well-established network upon which to draw ideas and resources to assist local districts. In addition, its knowledge of this region, its leaders, and the operation of its school districts have made it sensitive to local educational and economic issues in providing valuable assistance and services.

(continued)

Overall, the AIU represents a form of insurance to any local school district in the event that it has a need that it cannot meet for itself. It is a ready resource that has proven over the years to be reliable and credible in finding ways to meet the wide range of needs of local districts. The agency also serves as a bridge to economic development and other not-for-profit agencies.

8. What direct services does the AIU provide for local school districts from its general operating budget?

Each intermediate unit collaborates with local school districts to provide services at their discretion within a state-mandated framework. The original state-mandated services that each intermediate unit may provide from its general operating budget are:

- curriculum development and instructional improvement;
- educational planning;
- instructional media;
- continuing professional education;
- pupil personnel;
- state and federal liaison services; and
- management support.

The Program of Services Budget outlines the expenditure and revenue plan to support, coordinate, and operate the specific programs and services associated with the above-mentioned framework. The state subsidy allocated to the AIU on behalf of the local school districts enables each district to participate in and access the services within this framework.

A detailed description of these specific programs and services can be found in the AIU's *Services Guide*.

9. What other AIU services are available to the districts?

The administrative section of the Program of Services Budget provides the resources to supervise and direct more than 135 programs overseen by the AIU Board of Directors, funded with any combination of federal, state, local, and private funds for student and district needs and the various collaborative efforts now in effect.

10. How is the AIU's Program of Services Budget funded?

In 2017/2018, upon recommendation of the Superintendents' Finance Team, the AIU Program of Services Budget, which is required to be approved by the 42 school districts, was simplified to reflect the portion of programs and staff funded by the districts. This format was well received and continues in 2021/2022. Revenue for the mandated Program of Services is generated from district allocations from state revenue and other state subsidies, i.e., social security and retirement reimbursement.

11. How much is allocated for these services?

The Allegheny County school districts' allocation, once determined through the budget process, is appropriated by the state for each district with the annual amount in direct relation to district wealth (Aid Ratio) and enrollment (WADM).

12. How is the allocation from each district made to the AIU?

Each school district's allocation to support the Program of Services Budget is made through a state system of allocation as described above. The state withholds this allocation from each district's Basic Education Subsidy (BES) and forwards these funds directly to the AIU to support the Program of Services.

13. Are district allocations in the Program of Services Budget used to support other AIU programs?

No. District allocations only support the state-mandated program of services as described in question eight. Other AIU revenues are used to support other AIU programs.

14. Can revenue from the Program of Services Budget be transferred to other programs outside of the Program of Services and vice versa?

No. Transfers of revenue are not permitted.

(continued)

15. How is the Program of Services Budget developed?

Each of the program leaders in the AIU associated with the Program of Services Budget develops his/her section of the budget, based on input from each program's particular advisory committee of superintendents. Suggestions from the AIU executive director, resulting from the input of various agencies representing the needs of school districts, are also taken into consideration. Then, the composite program budget is discussed and reviewed by the Superintendents' Finance Team and the 42-member Superintendents' Advisory Council as a whole.

16. Who approves the Program of Services Budget?

Superintendents from the 42 school districts reach concurrence on the budget, typically at the January superintendents' meeting. Then, the budget is presented to the AIU Board of Directors for its review and approval. Finally, after reviewing the budget, each local school board takes official action by voting on the budget at a public meeting in its district during March or April. The approved budget is then forwarded to the Pennsylvania Department of Education by May 1 for the upcoming fiscal year beginning July 1. The state-approved budget document establishes the revenue to be allocated to the AIU from the state budget.

17. Why is the Program of Services Budget the only AIU budget reviewed and voted on by the local boards?

State legislation requires local school district boards to review and approve the Program of Services Budget. Budgets for other AIU programs are carefully developed and are subject to review and approval by their respective funding sources and the AIU board. All AIU budgets for programs provided by the intermediate unit are reviewed and approved annually by the 13-member board of directors, elected by the boards of directors of the 42 suburban school districts in Allegheny County.

Calculation of District Allocation by Withholding - Estimated 2021/2022

The Commonwealth has developed a system of financial support for the Program of Services Budget. A portion of this support is provided by the intermediate unit's member school districts in the form of a withholding allocation. The amount of each district's withholding allocation is based on a formula developed by the Pennsylvania Department of Education. Use of this formula assures that the comparative wealth and size of the member districts is taken into consideration. Districts having a larger population receiving intermediate unit services, and districts having a greater ability to pay for these services, provide a greater amount of support to the intermediate unit than those districts with a smaller population or lower wealth.

The schedule below indicates each member school district's 2020/2021 relative wealth (Market Value Aid Ratio) and each district's size (Weighted Average Daily Membership - WADM). These figures were used to estimate districts' 2021/2022 withholding.

District allocations may vary and are dependent upon the individual district's 2021/2022 Market Value Aid Ratio and Weighted Average Daily Membership as determined by the Pennsylvania Department of Education, sometime after July 1, 2021.

District	Market Value Aid Ratio (MVAR) *	Inverse Aid Ratio (IAR) (1 - MVAR)	WADM *	Weight Factor (WF) * (IAR X WADM)	Cost Factor (CF) (Total Withholding / Total WF)	2020/2021 Allocation (Actual)	Estimated 2021/22 Withholding * (WF X CF)
